trophy making, the art of fun

Not so long ago, we made trophies for the fun of it. Then we decided to make trophies for a livelihood and we had a business. Today, our entire activity is devoted to making trophies, and the fun is built right in. ■ If you think about it, this idea of fun—or happiness—is the most important element of the trophy. ■ You give a trophy to mark someone's unique achievement—a happy event for him, and for you too. The trophy presentation—out in the sun or in the banquet hall—it's all smiles. Whether it's adults or children, world's champion or third place—it's all smiles—giver, receiver, and spectators. ■ And in the thick of it is the trophy. The trophy says it all: at the ceremony or in the memory—times later. So the trophy must be right—simple, clean design, good quality, pleasurable use of color and decoration—the trophy is the HAPPY SYMBOL. ■ We believe that this basic idea is inherent in our catalog and our product. We try to make our trophies as good as they can be made. With the use of today's new materials, color and design we are trying to bring you trophies which suit our modern way of life. ■ But where is the evidence that we recognize what a trophy should be and in what ways do we merit your confidence? ■ It's in the small things—the bottoms finished with soft protective felt, or the color decorating of our tubes and bases. It's in the big things—our delivery of the right trophies at the right time or in our eagerness to create whole new trophy lines for clients with special needs, or in things, like the confidence we enjoy from clients who telephone us from any part of the country and simply say,"We have so much to spend, pick out a nice group and send it right out." ■ It's these things which make this a happy business. ■ If you think along these lines, you have found the place.

RETURN TO DESIGN DIV.

Around the plant, when someone says, "The Big T," this beautiful trophy is meant. Outstanding in size, rich in good wood and imported onyx, sparkling with color in the anodized aluminum tubes, this is "the trophy to end all trophies." We call it "The Big T" because we like it and because we feel it represents us in a "big way."

We build it in two color combinations:

A. Walnut base, white onyx, bronze tubes, T/gold figures and accessories.

B. Silvery black base, white onyx, blue tubes and T/silver figures and accessories.

Either way, "The Big T" will be the most impressive, the most beautiful trophy you have ever presented.

replica — When "The Big T" is used as a perpetual trophy, to be engraved with winners' names and kept from year to year, replicas can be presented to the winners by using models 7121 or 7120 on Page 14.

SELECTING THE RIGHT TROPHY

Too often in choosing trophies, say for example, golf or swimming . . . it could be bowling, baseball or any sport . . . the eye will scan the catalog and come to rest only on those models which picture a golf figure or a swimming figure. All the other models are over-looked and a decision is made based only on those few pictures which happen to have a golf or swim figure. ■ Obviously, there is a better method . . . and that method is to visualize your sport's figure, in this example it would be golf or swimming, as it would be on every trophy in the catalog. We have every type of sport figure, male or female, and every one of them is available on any trophy in the catalog. ■ Let all the models compete for your attention. Consider each in terms of design, height, price and general appropriateness. By disregarding the figure which is pictured and visualizing instead your sport's figure you will make better selections every time.

Here are three models designed to answer a particular need . . . the perpetual trophy . . . with metal plates arranged for easy engraving of new winners names as they are needed from month to month or year to year. ■ To complete the perpetual trophy ceremony, smaller replicas are available for the winners to keep while the perpetuals remain behind on display as a permanent symbol of the event. ■ Incidentally, these trophies are used widely as regular presentation trophies. Their very attractive and unusual appearance makes them a favorite all-purpose award, as well as a perfect perpetual trophy. ■ If desired, the victory figure can be replaced with the figure of the sport for which the trophy is presented. All sports figures, male or female, are available for use on these models and on all models in the catalog. ■ Custom engraving on trophies . . . five cents per letter . . . net

MEDAL DISPLAY CASE

MEDAL DISPLAY CASE — Every medal winner should have this attractive case for a permanent display of his medals, ribbons and other awards . . . in the home, office, school or clubroom. ■ In a rich walnut finish, the display case stands on the desk or hangs on the wall. The brass strips move up and down and side to side, to form many interesting designs for one to fifty medals. The medals are easily mounted on the plush background. New medals can be added as they are won and the entire display re-arranged as often as desired. The glass front keeps the medals clean and tarnish-free. A large engraving plate makes the display complete.

We have a complete line of athletic charms and award jewelry. These will be shown in another brochure now in production. Until this is ready, please contact us for details on your charm and award needs. ■ One of our best services in this field is our special order work in club, school or business awards featuring the reproduction of insignia or facsimile of a product. These can be made into very attractive pins, charms or advertising items, using color and design to full advantage. We are equipped to handle large quantity orders...and the small orders of fifty or so, too. We would be glad to quote on your sketch or create an original design at your request.
